## CapTel 840i Requirements

The CapTel 840i uses your telephone service and an Internet connection to give you the best of both worlds - voice and captions - during your calls.

- High-speed Internet access connects via WiFi or with an Ethernet jack.
  Depending on your setup, additional equipment, such as a router, may also be required.
- Telephone service (can be analog line, VOIP, FIOS, DSL or digital cable phone service. Cannot be cellular service.) Not compatible with PBX phone systems unless an analog port is available.
- Electrical power (AC adapter plugs into a standard wall outlet).

## **How CapTel 840i Works:**

Specifications subject to change. CapTel service is designed exclusively for individuals with hearing loss and is funded and regulated by the FCC.
