I. DEFINITIONS

The terms and abbreviations used in this Service Offering shall have the meanings ascribed to them in 83 Illinois Administrative Code 755.10.

II. SCOPE AND APPLICABILITY

1. General

The regulations contained in this Service Offering apply to the provision of telecommunications Equipment and related services, unless otherwise stated, or unless modified by specific provisions contained elsewhere in this Service Offering or in 83 Illinois Administrative Code Part 755.

2. Undertaking of ITAC

ITAC undertakes to provide on behalf of all Illinois local exchange carriers, in accordance with the provisions of 83 Illinois Administrative Code 755.100, the telecommunications services as follows and as further detailed in this Schedule:

- A. Distribution of Equipment to Recipients and Organizations, as prescribed in this Service Offering and in 83 Illinois Administrative Code 755 Subpart C;
- B. Provision of repair or replacement of Equipment, as prescribed in this Service Offering and in 83 Illinois Administrative Code 755 Subpart B;
- C. Provision of training in the use of Equipment at regional centers, for recipients of Equipment who desire training, provided in a manner appropriate to the recipient's needs.

III. LINE CHARGE AND ASSESSMENT

1. General

The operations of ITAC shall be funded by a line charge and assessment as specified in 220 ILCS 5/13-703(c) and (f). Each telecommunications carrier, wireless carrier, and interconnected VoIP provider shall submit to ITAC monthly a Monthly Remittance Report in the following format:

Carrier/Provider: _____
Local Exchange Carrier and Interconnected VoIP Provider and Wireless Provider
Monthly Remittance Report to ITAC
Report Month/Year _____

This is a _____ **New Report** _____ **Correction*** _____
 *attach explanation

<u>Line and Subscription Description</u>	<u>Number</u>	<u>Rate</u>	<u>Revenues</u>
1. Subscriber Lines ⁽¹⁾	_____	_____	-\$ _____
2. Centrex Lines ⁽²⁾	_____	_____	-\$ _____
3. PBX Trunks ⁽³⁾	_____	_____	-\$ _____
4. Advanced Services ⁽⁴⁾ (List each service)			
a. DTS-E (Digital Transport Svc)	_____	_____	-\$ _____
b. ISDN Prime	_____	_____	-\$ _____
c. _____	_____	_____	-\$ _____
d. _____	_____	_____	-\$ _____
e. _____	_____	_____	-\$ _____
5. VoIP Residential Subscriptions ⁽⁵⁾	_____	_____	-\$ _____
6. VoIP Business Subscriptions ⁽⁶⁾	_____	_____	-\$ _____
7. Wireless Lines ⁽⁷⁾	_____	_____	-\$ _____
8. Sub-Total			-\$ _____
9. Less Uncollectibles @ _____%		_____	-\$ _____
10. Total Remittance⁽⁸⁾			-\$ _____

- (1) "Subscriber lines" means a voice grade communication channel between a subscriber and a telecommunications carrier's public switched network, which would be required to carry the subscriber's interpremises traffic and which is capable of providing access through the public switched network to the Illinois relay system. A subscriber line does not include 800 lines or access lines used for official communications of telecommunications carriers providing local exchange service. **Do not include Centrex lines in the total in this row.**
- (2) One ITAC line charge shall be assessed for every 5 Centrex lines.
- (3) Five ITAC line charges shall be assessed for each PBX trunk.
- (4) The ITAC line charge assessment for advanced/multi-channel services mirrors the carriers 911 surcharge assessment for these services (pursuant to ITAC' Service Offering).
- (5) "Residential Subscriptions" means a count of the maximum number of interconnected VoIP calls that an end-user may have active at the same time. If the interconnected VoIP provider's retail customer purchases a service (or services) that allows more than one interconnected VoIP call to be made from the customer's physical location at the same time, the number of subscriptions equals the maximum number of interconnected VoIP calls that the customer may have active at the same time. **Do not include subscriptions for business customers in the total in this row.**
- (6) "Business Subscriptions." means a count of the maximum number of interconnected VoIP calls that an end-user may have active at the same time. If the interconnected VoIP provider's retail customer purchases a service (or services) that allows more than one interconnected VoIP call to be made from the customer's physical location at the same time, the number of subscriptions equals the maximum number of interconnected VoIP calls that the customer may have active at the same time. In the case of a business retail customer which purchases a service (or services) pursuant to a service agreement(s), the number of subscriptions equals the maximum number of interconnected VoIP calls that the customer may have active at the same time under the terms of the service agreement(s) with that customer. In calculating the rate for assessments on business subscriptions, one assessment shall be applied for each five business subscriptions (i.e., the application of the Assessment on business subscriptions shall mirror the application of the Line Charge to centrex lines). **Do not include subscriptions for residential customers in the total in this row.**

- (7) "Wireless lines" means a communications channel between a subscriber and a wireless carrier's network, which would be required to carry the subscriber's traffic and which is capable of providing access to the public switched network. A wireless line does not include lines used for official communications of wireless carriers.
- (8) Multiply Line 8 by carrier's, VoIP provider's, or wireless provider's uncollectible rate (shown in rate column) to obtain Line 9. Subtract Line 9 from Line 8 to obtain Line 10.

Please mail completed form and remittances to ITAC at:

Illinois Telecommunications Access Corp.
3001 Montvale Drive, Ste. A
Springfield, IL. 62704

For information call: 217.698.4170 or 1.800.841.6167 v/tty

2. Local Exchange Carriers

Each local exchange telecommunications carrier shall collect from its end-user customers and remit to ITAC monthly a charge per subscriber line in the amount ordered by the Commission pursuant to 220 ILCS 5/13-703. Resellers must collect the line charges directly from end-users and remit them to ITAC monthly. One charge shall be applied to each subscriber line (as defined in 83 Ill. Adm. Code 755.10) of the carrier, except as follows:

- A. Centrex:
one charge shall be applied for each five centrex lines;
- B. PBX:
five charges shall be applied for each PBX trunk;
- C. Services Provisioned by T-1 Lines and Other Advanced Services:
charges for services provisioned by T-1 lines and other advanced services shall mirror the carrier's application of 9-1-1 charges.

The line charge shall be identified on customer bills as "IL Telecom Relay Service and Equipment" or an equivalent phrase that is not detrimental to persons with disabilities.

3. Interconnected VoIP Providers

Each Interconnected VoIP Provider, directly or via another entity, shall collect from its customers and remit to ITAC monthly the assessment per subscription required by 220 ILCS 5/13-703(f) and ordered by the Commission. Indirect remittances to ITAC shall indicate the Interconnected VoIP Provider on whose behalf assessments are being remitted.

- A. One assessment shall be applied to each subscription (as defined in 83 Ill. Adm. Code 755.10) of the Interconnected VoIP provider, except as provided in Section III.3.B. below with respect to business subscribers.
- B. For VoIP business subscribers, one assessment shall be applied for each five business subscriptions (i.e., the application of the Assessment on business subscriptions shall mirror the application of the Line Charge to centrex lines).

4. Wireless Carriers

Each wireless carrier shall collect from its end-user customers and remit to ITAC monthly a charge per subscriber line in the amount ordered by the Commission pursuant to 220 ILCS 5/13-703.

5. Sellers of Prepaid Wireless Telecommunications Service

Each seller of prepaid wireless telecommunications service shall remit the assessments to the Department of Revenue on the same form and in the same manner which they remit the fee collected under the Prepaid Wireless 9-1-1 Surcharge Act, as provided in 220 ILCS 5/13-703(f). The amount of the assessment shall be ordered by the Commission pursuant to 220 ILCS 5/13-703.

IV. ELIGIBILITY AND APPLICATION FOR EQUIPMENT

1. For Residents

- A. Applicants shall submit to ITAC a completed application packet, as described in 83 Illinois Administrative Code 755.115 including (without limitation) a disability certification as described in 83 Illinois Administrative Code 755.200, and proof of identification and residency as described in 83 Illinois Administrative Code 755.205(e).
- B. ITAC shall process applications as described in 83 Illinois Administrative Code 755.115 and shall distribute Equipment to eligible Recipients as provided in 83 Illinois Administrative Code 755.205.
- C. The application packet for residents shall contain the materials described in 83 Illinois Code 755.115.

2. For Organizations

- A. Organizations shall file a verified Application or Petition for Eligibility and their eligibility shall be determined by the Commission as provided in 83 Illinois Administrative Code 755.210. The verified Application or Petition for Eligibility and all subsequent documents filed and orders issued in the proceeding shall be

served on ITAC pursuant to 83 Illinois Administrative Code 200.150 and 83 Illinois Administrative Code 755.210(f).

- B. ITAC shall distribute Equipment to eligible Organizations as provided in 83 Illinois Administrative Code 755.210.
- C. Eligible Organizations may receive only one piece of Equipment, regardless of the number or kinds of disabilities of the persons served by the Organization.

V. LOANED EQUIPMENT

1. Time Period for Possession of Loaned Equipment

Contingent upon the Recipient's compliance with the provisions of 83 Illinois Administrative Code Part 755, all Equipment distributed under the loan program will be provided until the user's legal residence ceases to have telephone service for more than 45 days. At such time, the Equipment must be returned to ITAC. If telephone service is reestablished after the Equipment has been returned to ITAC, eligibility must be reapplied for as though no prior service had been provided. An applicant who reapplies after having returned Equipment may use an eligibility form certifying the disability, as described in 83 Illinois Administrative Code 755.115(a)(2), dated up to one year prior to the date of notice of loss of eligibility.

2. Shared Residence

In the event that two or more Recipients share a common permanent legal residence, loaned Equipment in excess of that permitted under 83 Illinois Administrative Code 755.205 shall be returned to ITAC.

3. Change of Address

If the Recipient changes his or her permanent legal address within the State of Illinois, he or she must inform ITAC of the change of address.

4. Equipment Ownership and Liability

All Equipment distributed under the loan program pursuant to 83 Illinois Administrative Code 755.100(a) shall remain the property of ITAC. Each Recipient shall sign a form indicating that he or she understands and accepts the requirements of 83 Illinois Administrative Code 755.100(a) regarding ownership and liability.

Equipment distributed under the loan program by ITAC may not be sold, loaned, or otherwise transferred out of the possession of the original Recipient. Transfers will subject the Recipient to liability for the full replacement cost of the Equipment.

5. Recipient Responsibility

- A. In cases in which the Recipient is the sole User within the residence:
 - (1) in the event the Recipient permanently relocates outside of Illinois, the Recipient must return the loaned Equipment to ITAC prior to leaving the State;
 - (2) in the event of the death of the Recipient, the executor of the Recipient's estate or other responsible survivor must return the loaned Equipment to ITAC.

- B. In cases in which the User resides with a person with a disability as defined in 83 Illinois Administrative Code 755.10:
 - (1) in the event of the User's death or permanent relocation outside of Illinois, the remaining person with the qualifying disability or the parent or legal guardian of the remaining person with a qualifying disability must give notice to ITAC and make application for the assignment of Recipient status to the eligible individual within the residence;
 - (2) in the event that both the User and the other eligible person with the qualifying disability permanently relocate outside of Illinois, the User must return the loaned Equipment to ITAC prior to leaving the State.

- C. In cases in which the Recipient is the parent or guardian of a minor User, on the occasion of the 18th birthday of a minor User, the Recipient shall give notice to ITAC and Recipient status shall be transferred to the User.

6. Responsibility for Maintenance of Loaned Equipment

Unless otherwise specified in 83 Illinois Administrative Code Part 755, all ordinary expense of maintenance and repair of loaned Equipment due to ordinary wear and tear is borne by ITAC. If loaned Equipment is distributed in a protective case, the Recipient must keep the loaned Equipment in that protective case. If loaned Equipment is damaged, lost, or destroyed due to negligence of the Recipient or failure of the Recipient to keep the loaned Equipment in its protective case, and not due to ordinary wear and tear, the Recipient shall be held responsible for the cost of replacing the lost or destroyed loaned Equipment or restoring the damaged loaned Equipment to its original condition, unless ITAC assumes the responsibility for the costs of repair in such instances. ITAC may bill the Recipient for the cost of replacing or restoring the lost, destroyed, or damaged loaned Equipment and withhold further participation by the Recipient in the programs offered under Section 755.100(a) and (b) until payment is made. The Recipient must immediately notify ITAC if any of ITAC's loaned Equipment is lost, destroyed, stolen, or damaged. If the loaned Equipment is stolen, damaged or destroyed due to fire, flood or other acts of God, the police, fire, or insurance adjustor's report, specifying the stolen, damaged, or destroyed ITAC Equipment, must be forwarded to ITAC within thirty days after the date the incident was reported.

VI. VOUCHER EQUIPMENT

1. Time Period for Possession of Voucher Equipment

- A. Contingent upon the Recipient's compliance with the provisions of 83 Illinois Administrative Code Part 755, a Recipient of Equipment distributed under the voucher program is eligible for a new voucher for Equipment every three (3) years, except as provided in Section 1.B below.
- B. If a Recipient's Equipment requirements change within the voucher time period, the Recipient may obtain a different piece of Equipment by submitting to ITAC an application for recertification, certifying that the Recipient's disability has changed significantly to such a degree that the Recipient can no longer use the existing Equipment, and requires a different piece of Equipment, to engage in regular and routine telephone communication.

2. Subscriber Lines; Shared Residence

- A. Pursuant to Illinois Administrative Code 755.205, one piece of Equipment shall be provided per subscriber line in a residence that is the permanent legal residence of a certified user. Subject to Section 2.B below, the maximum number of pieces of Equipment that shall be provided is the lesser of the number of certified users or the number of subscriber lines in the residence.
- B. In the event that two or more certified users with different disabilities share a common permanent legal residence, and if the certified users require dissimilar Equipment in order to engage in regular and routine telephone communications as a result of their differing disabilities, ITAC shall provide an additional piece of Equipment or pieces of Equipment

3. Change of Address

If the Recipient changes his or her permanent legal address or telephone number within the State of Illinois, he or she must inform ITAC of the change.

4. Equipment Ownership and Liability

All Equipment distributed under the voucher program pursuant to 83 Illinois Administrative Code 755.100(b) shall be the property of the Recipient. Each Recipient shall sign a form indicating that he or she understands and accepts the requirements of 83 Illinois Administrative Code 755.100(b) regarding ownership and liability.

5. Responsibility for Maintenance of Voucher Equipment

Equipment distributed under the voucher program is covered by a 3-year warranty for normal usage, wear and tear. For repairs under warranty, the Recipient is responsible for the cost of postage and for mailing Equipment to the repair center as instructed by ITAC.

6. Accessories

In addition to Equipment distributed under the voucher program, ITAC may provide Recipients with an accessory such as a signaler. Distribution of accessories is subject to ITAC's discretion on a case-by-case basis, based on compatibility with the Equipment distributed, user need, and availability.

VII. EQUIPMENT SPECIFICATIONS

1. Equipment Loan Program

A. Deaf-blind Communicator

(1) Product Specifications

Manufacturer: HumanWare
Model Name: Deaf-blind Communicator

(2) Operating Functions and Specifications

- a. Braille TTY; Braille or Qwerty keyboards
- b. 18 or 32 Braille cells
- c. Full KeySoft set of applications
- d. Baudot 45.45 and ASCII compatible
- e. Internal modem with R.111C Jack
- f. Acoustical coupler or direct connect transmission
- g. Portable; weighs 2.5 pounds
- h. Capable of face-to-face electronic communication, SMS, instant messaging, voice carry-over
- i. Microsoft Windows CE operating system
- j. Compatible with hearing aid devices
- k. 128 MB of non-volatile user storage; 64 MB RAM; 64 MB ROM for program and OS storage.
- l. Pocket-size vibrating companion device to signal incoming calls
- m. 2 USB host ports, USB client port for ActiveSync, standard 9-pin RS232 serial port, infra-red port
- n. SD, compact flash and Type 2 PCMCIA card slots

(3) Recipient Disability Certification Requirements

A Deaf-blind Communicator may be distributed to an applicant who has been certified as permanently deaf-blind or speech disabled-blind, and who meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

2. Equipment Voucher Program

A. Amplified Telephones

(1) CLARITY ALTO PLUS AMPLIFIED TELEPHONE

a. Product Specifications

Manufacturer: Clarity Products LLC
Model Number: Alto Plus

b. Operating Functions and Specifications

- 1) TIA-4953 certified for mild, moderate and severe hearing loss
- 2) Amplifies incoming sound up to 53 decibels and outgoing speech up to 15 decibels
- 3) Digital Clarity Power™ incorporates hearing aid technology for clearer call quality
- 4) Extra loud ringer volume (100dBA)
- 5) Large tilting LCD display with large font
- 6) Clarity AudioCenter with ergonomic volume and tone control
- 7) Built-in speakerphone
- 8) Soft-touch backlight keypad
- 9) Three (3) one-touch speed dial memory buttons
- 10) ClarityLogic™ remote diagnostic service programs the phone at the touch of a button
- 11) Clarity VoiceAssist for talking keypad and talking Caller ID
- 12) Oversized bright visual ringer
- 13) Headset, neckloop and bedshaker ports
- 14) Battery backup enables calls even when the power goes out
- 15) TIA-1083 compliant for hearing aid compatibility

c. Recipient Disability Certification Requirements

A Clarity Alto Plus amplified telephone may be distributed to an applicant who has been certified as being permanently hard-of-hearing, meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves the right to make a final determination on the appropriate piece

of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(2) CLARITY XLC7BT™ CORDLESS AMPLIFIED TELEPHONE

a. Product Specifications

Manufacturer: Clarity Products LLC
Model Number: XLC7BT™

b. Operating Functions and Specifications

- 1) Cellphone at Home® permits calls with and without landline.
- 2) Pair up to 2 Bluetooth®-enabled cellphones or 1 cellphone and 1 Bluetooth®-enabled headset to use cordless phone with your cellphone service
- 3) Amplifies incoming sound up to 50+ decibels and outgoing speech up to 15 decibels
- 4) Four tone settings for incoming cell and landline calls
- 5) High contrast screen with large font (English/Spanish/French)
- 7) Download contacts stored in your cellphone into the XLC7BT™ synchronized phone book, up to 1000 records
- 8) Talking Caller ID and talking Numeric Keypad with large, backlit buttons (compatible with optional customer-provided Caller ID)
- 9) Loud and clear speakerphone for hands-free conversations
- 10) Programmable memory button
- 11) Hearing aid compatible and TIA-1083 compliant
- 12) Can be expanded with up to three optional, customer-provided additional handsets (Clarity XLC7HS™)
- 13) Extra loud, flashing ringer with adjustable ringer tones and voicemail indicator
- 14) Dual Power Battery Backup enables calls if power is out
- 15) Direct connection to assistive listening devices or headset (2.5 or 3.5 mm)
- 16) Frequency: 1.9 GHz DECT 6.0, Talk Time up to 6.5 hours, Standby Time up to 130 hours, Weight .5 pounds

c. Recipient Disability Certification Requirements

A Clarity XLC7BT™ amplified telephone may be distributed to an applicant who has been certified as being permanently hard-of-hearing, and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves the right to make a final determination on the appropriate piece

of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(3) CLARITY XLC8™ CORDLESS AMPLIFIED TELEPHONE

a. Product Specifications

Manufacturer: Clarity Products LLC
Model Number: XLC8™

b. Operating Functions and Specifications

1) Pair to your Bluetooth enabled mobile phone (up to 2); permits calls with and without landline.

2) Amplifies incoming sound up to 50+ decibels and outgoing speech up to 15 decibels.

3) Four tone settings for incoming cell and landline calls, boost button, and volume control wheel to give customized listening experience.

4) Loud and clear speakerphone for hands-free conversations

5) Answering machine

6) Live slow talk to slow down real-time conversations and to slow down messages on answering machine.

7) High contrast screen with large font (English/Spanish/French)

8) Talking Caller ID and talking illuminated dial pad (English/French)

9) Extra loud, big button speakerphone for hands-free conversations

10) Hearing aid compatible and TIA-1083 compliant

11) Can be expanded with up to four optional, customer-provided additional handsets (Clarity XLC8HS™ or XLCgo)

12) Extra loud, flashing ringer with adjustable ringer tones and voicemail indicator

13) Dual Power Battery Backup enables calls if power is out

14) Direct connection to assistive listening devices or headset (2.5 or 3.5 mm)

c. Recipient Disability Certification Requirements

A Clarity XLC8™ amplified telephone may be distributed to an applicant who has been certified as being permanently hard-of-hearing, and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves

the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(4) GEEMARC TELECOM AMPLI550

a. Product Specifications

Manufacturer: Geemarc Telecom
Model Number: Ampli550

b. Operating Functions and Specifications

- 1) Large 1.5" backlit talking keys
- 2) Talking Caller ID and extra-large LCD display that stores up to 99 incoming calls
- 3) One-touch customer service quick dial
- 4) Extra loud and clear amplification up to 52 decibels
- 5) Amplified speakerphone up to +15dB
- 6) 95dB loud ringer and built-in strobe ring signaler
- 7) 3-level Speech Output Control adjusts outgoing voice volume up to 12dB
- 8) 9 one-touch memory dial buttons
- 9) Redial, Flash and Mute buttons
- 10) Uses rechargeable batteries for LCD display (included)
- 11) Uses line power and AC power (included)
- 12) Hearing-aid compatible
- 13) Easy-to-adjust Volume and Tone control
- 14) 2.5mm for headsets and 3.5mm audio jacks for headphones, neck loops, cochlear implant patch cords

c. Recipient Disability Certification Requirements

A Geemarc Ampli550 amplified telephone may be distributed to an applicant who has been certified as being permanently hard-of-hearing, meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(5) PANASONIC 430B AMPLIFIED CORDLESS PHONE

a. Product Specifications

Manufacturer: Panasonic
Model Number: KX-TGM 430B

b. Operating Functions and Specifications

- 1) Cordless Amplified Phone up to 40 dB
- 2) Sync up to 2 cell or smart phones via Bluetooth to make amplified calls and receive text alerts through the Panasonic Link2Cell handset
- 3) Digital Answering Machine
- 4) 6 voice tone settings
- 5) Ringer tone volume up to 100 dB and bright red LED visual ringers on base unit and handset
- 6) Slow Talk feature capable of slowing speech in real time as well as on voice messages
- 7) Hearing Aid compatible
- 8) Talking Caller ID, Talking Keypad and Phonebook, Speakerphone, 300 number phonebook, and intercom
- 9) 9 Speed Dial settings
- 10) Enlarged memory dial keys
- 11) Back up batteries that provide 13 hours of continued use or 9 days of standby power in the event of outage
- 12) DECT 6.0 Plus for extended signal range
- 13) Noise Reduction feature to suppress background noise

c. Recipient Disability Certification Requirements

A Panasonic 430B may be distributed to an applicant who has been certified as having a permanent hearing disability, and who has good speech skills and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(6) PANASONIC 450 AMPLIFIED CORDLESS PHONE

a. Product Specifications

Manufacturer: Panasonic
Model Number: KX-TGM 450

b. Operating Functions and Specifications

- 1) Cordless Amplified Phone up to 50 dB

- 2) Big white backlit LCD, enlarged Touch Dial keys and controls
- 3) Digital Answering Machine
- 4) 6 voice tone settings
- 5) Loud base unit ringer and bright red LED visual ringers on base unit and handset
- 6) Slow Talk feature capable of slowing speech in real time as well as on voice messages
- 7) Hearing Aid compatible
- 8) Talking Caller ID, Talking Keypad and Phonebook, Speakerphone, 100 number phonebook, and intercom
- 9) 9 Speed Dial settings
- 10) Enlarged memory dial keys
- 11) Back up batteries
- 12) DECT 6.0 Plus for extended signal range
- 13) Noise Reduction feature to suppress background noise

c. Recipient Disability Certification Requirements

A Panasonic 450 may be distributed to an applicant who has been certified as having a permanent hearing disability, and who has good speech skills and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff, and for whom this model of amplified telephone best enables the applicant to engage in regular and routine telephone communication. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

B. Captioned Telephones

(1) ULTRATEC CAPTEL® 840 PLUS CAPTIONED TELEPHONE

a. Product Specifications

Manufacturer: Ultratec Corporation
 Model Number: 840 PLUS
 Model Name: CapTel® 840 PLUS

b. Operating Functions and Specifications

1) The CapTel® 840 PLUS phone allows the user to read the other party's conversation on the phone's built-in screen while listening to the voice of the other party. The CapTel® 840 PLUS is not a TTY; rather it is a telephone designed to allow the user to have natural back and forth conversations with amplification and captioning support.

- 2) Can be used either with standard analog telephone lines or as an IP-based device; built-in test determines which mode will work best for user.
- 3) Extra large, easy-to-read captions window with adjustable font sizes and colors; display screen tilts or lies flat for wall mount.
- 4) One touch access to CapTel Customer Service through speed dial (available 24 hours a day, 7 days a week)
- 5) Speed dial keys for one-touch dialing of frequently called numbers
- 6) Adjustable volume control up to 40 dB gain for captioned calls.
- 7) Over 95 phone book entries
- 8) Built-in answering machine shows captions of voice messages.
- 9) Easy-to-follow menu system with Yes/No questions.
- 10) Caller ID capable (requires Caller ID service).

c. Recipient Disability Certification Requirements

A CapTel® 840 PLUS unit may be distributed to an applicant who has been certified as having a permanent hearing disability, and who has good speech skills and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff. A signaler unit may be distributed to a CapTel recipient upon request. This equipment is designed for use with analog or digital cable or VoIP telephone services from an ITAC provider. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(2) ULTRATEC CAPTEL® 840i CAPTIONED TELEPHONE

a. Product Specifications

Manufacturer: Ultratec Corporation
 Model Number: 840i
 Model Name: CapTel® 840i

b. Operating Functions and Specifications

1) The CapTel® 840i phone uses your telephone service and an Internet connection to allow the user to read the other party's conversation on the phone's built-in screen while listening to the voice of the other party. The CapTel® 840i is not a TTY; rather it is a telephone designed to allow the user to have natural back and forth conversations with amplification and captioning support.

2) Requires high-speed Internet access via WiFi or Ethernet jack; additional equipment such as a router may be required. Also requires analog, VoIP or digital cable telephone service; cannot be cellular service.

- 3) Extra large, easy-to-read captions window with adjustable font sizes and colors; display screen tilts or lies flat for wall mount.
- 4) One touch access to CapTel Customer Service through speed dial (available 24 hours a day, 7 days a week)
- 5) Speed dial keys for one-touch dialing of frequently called numbers
- 6) Adjustable volume control up to 40 dB gain for captioned calls.
- 7) Over 95 phone book entries
- 8) Built-in answering machine shows captions of voice messages.
- 9) Easy-to-follow menu system with Yes/No questions.
- 10) Caller ID capable (requires Caller ID service).

c. Recipient Disability Certification Requirements

A CapTel® 840i unit may be distributed to an applicant who has been certified as having a permanent hearing disability, and who has good speech skills and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff. A signaler unit may be distributed to a CapTel recipient upon request. This equipment is designed for use with high speed internet access plus analog or digital cable or VoIP telephone services from an ITAC provider. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(3) ULTRATEC CAPTEL® 880i CAPTIONED TELEPHONE

a. Product Specifications

Manufacturer: Ultratec Corporation
 Model Number: 880i
 Model Name: CapTel® 880i

b. Operating Functions and Specifications

1) The CapTel® 880i phone is a captioned telephone for people with low vision skills. It uses your telephone service and an Internet connection to allow the user to read the other party’s conversation on the phone’s built-in screen while listening to the voice of the other party. The CapTel® 880i is not a TTY; rather it is a telephone designed to allow the user to have natural back and forth conversations with amplification and captioning support.

2) Requires high-speed Internet access via WiFi or Ethernet jack; additional equipment such as a router may be required. Also requires analog, VoIP or digital cable telephone service; cannot be cellular service.

3) Extremely large, high resolution 10" captions window with adjustable font sizes, styles, and colors; display screen tilts or lies flat for wall mount.

4) One touch access to CapTel Customer Service through speed dial (available 24 hours a day, 7 days a week)

5) Speed dial keys for one-touch dialing of frequently called numbers

6) Adjustable volume control up to 40 dB gain for captioned calls.

7) Over 95 phone book entries

8) Built-in answering machine shows captions of voice messages.

9) Easy-to-follow menu system with Yes/No questions.

10) Caller ID capable (requires Caller ID service).

c. Recipient Disability Certification Requirements

A CapTel® 880i unit may be distributed to an applicant who has been certified as having a permanent hearing disability, and who has low vision, good speech skills, and meets the other certification requirements specified in 83 Ill. Adm. Code 755 and in this tariff. A signaler unit may be distributed to a CapTel recipient upon request. This equipment is designed for use with high speed internet access plus analog or digital cable or VoIP telephone services from an ITAC provider. ITAC reserves the right to make a final determination on the appropriate piece of Equipment for the applicant, based on input from the applicant, the certifier, and the staff of the selection center.

(4) ULTRATEC CAPTEL® 2400i CAPTIONED TELEPHONE

a. Product Specifications

Manufacturer: Ultratec Corporation

Model Number: 2400i

Model Name: CapTel® 2400i

b. Operating Functions and Specifications

1) The CapTel® 2400i phone uses your telephone service and an Internet connection to allow the user to read the other party's conversation on the phone's built-in touch screen display, while listening to the voice of the other party. The CapTel® 2400i is not a TTY; rather it is a telephone designed to allow the user to have natural back and forth conversations with amplification and captioning support.

2) Requires high-speed Internet access via WiFi or Ethernet jack; additional equipment such as a router may be required. Also requires analog, VoIP or digital cable telephone service; cannot be cellular service.

3) Bluetooth connectivity

- 4) Features a large, colorful tablet-style display with easy touch-screen control and adjustable font sizes and colors; display screen tilts or lies flat for wall mount.
- 5) One touch access to CapTel Customer Service through speed dial (available 24 hours a day, 7 days a week)
- 6) Speed dial keys for one-touch dialing of frequently called numbers; Dial-by-Photo capability

LIABILITY

1. Except in cases of willful misconduct, neither ITAC nor any Illinois carrier assumes any liability whatsoever for any claims, loss or damages of any sort resulting from or arising directly or indirectly from mistakes, omissions, interruptions, delays, errors, or defects in transmission; or from mistakes, omissions, delays, errors or defects in Equipment or the provision or distribution (including, without limitation, training, maintenance, and repair) thereof; or from mistakes, omissions, delays, or errors in determinations of eligibility, occurring in connection with the provision or distribution of Equipment and related services (including, without limitation, training, maintenance, and repair) pursuant to 83 Illinois Administrative Code Part 755 and this Schedule.
2. ITAC and the carriers shall be indemnified and held harmless by the Recipient or Organization or their agents against any and all claims, suits, damages, costs, losses, and expenses (including attorney’s fees) including, but not limited to, libel, slander, or infringement of copyright arising or resulting directly or indirectly from any material transmitted over Equipment or the use thereof, equipment or services (including, without limitation, training, maintenance, and repair) furnished through ITAC, or from

apparatus and systems of the user, Recipient, or Organization; and against any and all claims, suits, damages, costs, losses, and expenses (including attorney's fees) in any manner resulting from or arising out of any act or omission of a user or Recipient or Organization with respect to the use of the Equipment provided by ITAC.

- 3.** Neither ITAC nor the carriers shall be liable for any loss, including but not limited to lost profits, costs, damages, expenses or delay, caused by or due to labor difficulties, governmental orders, civil commotions, Acts of God or events beyond the reasonable control of ITAC or the carriers.
- 4.** Each applicant, user, Recipient, and Organization agrees to release, indemnify, defend and hold harmless ITAC and the carriers from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the applicant, user, Recipient or Organization or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or distribution of any property, whether owned by the applicant, user, Recipient, Organization or others, arising directly or indirectly from the provision by ITAC of Equipment, facilities, or services (including, without limitation, training, maintenance and repair) pursuant to 83 Illinois Administrative Code Part 755 and this Schedule.
- 5.** Neither ITAC nor the carriers shall be liable for acts or omissions of others when Equipment or related facilities are used for access to the public switched telecommunications network.
